Wind Power Asia

23 – 25 June 2010 • CNCC, Beijing, China

Wind Power Asia (WPA) is the largest and most authoritative wind power exhibition and conference in China. Held annually since 2003, it provides the essential platform to conduct business and exchange information in the vibrant Chinese wind power market. The exhibition is the event of choice for leading domestic manufacturers and international suppliers, and the high-profile conference offers valuable market insights. Wind Power Asia actively promotes the development of the wind power industry and is co-organized by the Wind Energy Machinery Manufacturers Center of the China Machinery Enterprises Management Association (CMMA), as well as supported by the World Wind Energy Association (WWEA) and the Asian Development Bank (ADB).

What you will achieve

- Market & Present your products, technology and services to a professional audience from China and Asia
- Learn & Discover upcoming policies and new trends in the rapidly developing wind energy market in China
- Meet & Communicate with project developers, investment institutions, new customers and partners
- Position your organization at the very heart of the Asian wind energy market
- Profit from global know-how, valuable contacts and personal conversations.

Special rates for European pavilion

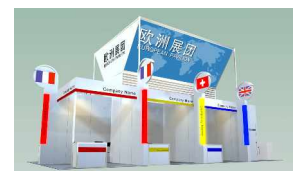

Koelnmesse offers tailored all-inclusive packages for European exhibitors interested to participate at the exhibition. We take care of all organizational details for you. You just make your way to Beijing: your booth will be ready for move-in when you arrive, with no hidden costs! This package offers those companies, which are new in China, or smaller companies without the resources to sufficiently arrange for all aspects of a trade fair participation, an easy and convenient way to tap into the growing Chinese wind energy market.

Our Offer

For EUR 260/sqm only the package contains:

Space rental fee, stand construction with individual country flag, info counter, table & chairs, light & power socket, catalogue entry, exhibitor passes, waste disposal, electrical consumption, shared access to interpreter (English/Chinese) during show time.
